

PUBLIC MEETING

LONGMARSH GREEN ENERGY DEVELOPMENT

What we have now

What it could look like

Tilney St Lawrence Parish Council has arranged a **public meeting** to provide residents with the opportunity to learn more about the proposed **Longmarsh Green Energy development**, which includes a large-scale solar farm and data centre.

A representative from **EPL Norfolk Ltd**, the company behind the proposals, has been invited to attend the meeting to explain the development and respond directly to questions and concerns raised by local residents.

The meeting will provide an opportunity for residents to learn more about the proposals, ask questions and raise any concerns directly with the developer.

Local MP Terry Jermy and Northwest Norfolk MP James Wild have both been invited to attend.

Local Borough and County Councillors will also be present to share their views and hear the concerns of residents.

This proposed development could have a significant impact on our rural community and the surrounding area, and the Parish Council believes it is important that residents have the opportunity to be informed and have their voices heard.
